PROFILE

Full-Stack Developer with strong Front-End expertise in building web application using **ReactJS, NextJS, Javascript, Typescript** and other helpful libraries. Transforming figma designs to user-friendly and performant web interfaces and integrating API's with Back-End and AI services. And Back-end experience working with **.NET (C#), NodeJS, ExpressJS, Python, FastAPI and SQL (MSSQL)/NoSQL (Postgres) Databases**. Capable of delivering end-to-end full-stack solutions

PROFESSIONAL EXPERIENCES

Media Meter Inc - Quezon City Philippines

October 2023 - August 2025

Junior Frontend Developer

- **Developed an AI-powered web platform** using ReactJS and TypeScript where users can upload videos or audio files to automatically get the text version (transcription), translate it into different languages, and ask questions about the content through an AI-powered chat.
- **Implemented document chat functionality** that lets users upload PDFs, Word files, and text documents, then interact with them using an AI chatbot that understands and responds to questions about the content.
- **Optimized front-end architecture and performance**, resulting in a **60%** improvement in application stability and providing a smoother, more consistent user experience across devices and browsers.
- **Integrate APIs with backend and ML team** to enable transcription, translation and chat features, ensuring seamless communication between the front-end and AI services.
- **Collaborated closely with the UI/UX team** to ensure the website's interface is visually appealing, user-friendly, and aligned with the overall design and user experience goals.

Thurston Software Solution - San Juan City, Metro Manila Philippines

November 2025 - Present

Junior Software Developer I

- **Maintained and enhanced** a finance **web application** in **.NET (C#)** and **MS SQL**, supporting day-to-day operations by resolving issues and implementing updates aligned with the client's business and compliance requirements.
- **Increase system performance** by up to **30%** through code optimization, SQL query tuning and database indexing improvements.
- **Developed and integrated new features** to the website using **.NET (C#)**, **MS SQL** while ensuring it is maintainable, scalable and reliable.
- **Collaborated** with **project owner** and **QA engineers** to gather requirements and deliver solutions that meet business and compliance standards.
- Worked with **REST API's** and **internal services** to integrate data across business systems.
- Assisted in **deployment activities**, release validation, and post-release monitoring to ensure smooth production releases.
- **Compared SQL database changes** across multiple environments and validated deployment scripts and create data fix scripts to ensure accurate and reliable releases.

TECHNICAL SKILLS

Front-End - ReactJS, NextJS, Javascript, Typescript, Tailwind CSS, CSS, SCSS, HTML, Shadcn UI, Blazor

Back-End - NodeJS, ExpressJS, Python, FastAPI, ASP.NET, C#

Database - MongoDB, MySQL, PostgreSQL, DrizzleORM, PrismaORM, SQLAlchemy, MS SQL

Tools / Deployment - Git, Github, Bitbucket, Vercel, Jira, Postman, Swagger

EDUCATION

Cavite State University Main - Indang Cavite, Philippines

Bachelor Degree in Computer Science

- Attend an seminar about computer and technologies
- Latin Honor
